One Night a Week Business Administration Program Accepting Students

LIMA, Ohio – The One Night a Week Business Administration program at Rhodes State College is accepting students. This program provides working adults the opportunity to gain an associate degree in less than 24 months while attending classes only one night a week. The first class begins July 14, and will be held on Wednesday evenings.

An information session is scheduled for May 19 for those wanting to learn more about this adult-centered program. The session will be held from 6-7 p.m. in Public Service Building, Room 212. Those seeking a degree, but who cannot add multiple day or evening classes several days a week to an already busy schedule of work and family, will find the one night a week aspect much easier to manage.

The one night a week business program curriculum includes courses relating to management, marketing, customer service, economics, organizational behavior, and accounting. In addition, business law, human resource management, team building, English, math, as well as liberal arts classes in history and psychology courses are also included.

Persons interested in learning more about the program, should attend one of the information sessions or call 419-995-8423. Classes begin July 14 and applications are currently being accepted.
