Mitsubishi Electric Training Center Classes Offered at Rhodes State College

LIMA, Ohio – Classes are now forming at the new Mitsubishi Electric Training Center at Rhodes State College for GX Works2 PLC Basics and GX Works2 Programming. GX Works2 PLC Basics will be held on August 26 from 8:30am-4:30pm and provides the opportunity to learn about the basics of Programmable Logic Controllers (PLCs) and is a prerequisite to the GX Works2 Programming class. Offered August 27-29 from 8:30am-4:30pm, the GX Works2 Programming course will introduce students to the GX Works2 software and programming in ladder logic.

Rhodes State College is the only certified Mitsubishi Electric training center in Ohio to instruct workers in the use of PLCs. For more information, call 419-995-8416.
