

Nutrition & Food Service Professional Certificate

Program

The Nutrition and Food Service Professional certificate program is designed for persons interested in working in the food service industry. The curriculum is a blend of nutrition and management courses that prepare the student to work in collaboration with dietitians, doctors, nurses and health care administrators to manage food service departments in health care facilities. The program includes a combination of class room, laboratory, and field experience that utilizes various community health care and food service settings. Preceptors for the field experience include a combination of registered dietitians, certified dietary managers and health care administrators. Those who successful complete the curriculum will receive a certificate and are eligible to take the national examination to become a Certified Dietary Manager in the State of Ohio.

Accreditation

Accreditation

The program is seeking approval for accreditation by the Association of Nutrition and Food Service Professionals, 406 Surrey Woods Drive, St. Charles, IL 60174, 1-800-323-1908.

Mission Statement

Mission Statement

The Nutrition and Food Service Professional certificate program is designed to change lives, build futures and create career choices that will improve quality of life, be an asset to the community, and promote lifelong learning.

Technical Standards

All applicants accepted into Rhodes State's Nutrition and Food Service Professional certificate program must be able to meet the technical standards of the program of study for which they enroll. Students are asked to review the standards and to sign a form certifying that they have read, understand, and are able to meet the standards.
