

CAMP CLASSES

GRADES 2-4*

EVERYDAY ART AM and PM session available

Discover your artistic side and let your imagination run wild as you turn everyday objects into a work of art. Become a member of the art community as you view creations from various famous artists and have a chance to create your own. When you think like an artist, even the most ordinary things- a cup, plate, bottle caps, absolutely anything- can spark creativity and every idea can become a masterpiece!

LEGO MANIA AM and PM session available

Unleash your creativity and curiosity in this action-packed camp that blends the fun of LEGO building with hands-on STEM learning. Campers will explore science, technology, engineering, and math concepts while creating exciting LEGO models, tackling design challenges, and participating in team-building activities.

JURASSIC WORLD AM and PM session available

Explore the fascinating world of prehistoric creatures! Learn fun facts about the prehistoric world, discover real fossils and dinosaur bones, participate in a hands-on fossil dig and create your own fossil prints and dinosaur eggs. If you're obsessed with dinosaurs, this is the ultimate camp for you!

HABITAT HEROES AM and PM session available

Learn about native Ohio habitats and the animals that live there with hands-on activities to excite curiosity and encourage appreciation of nature. Become a Habitat Hero dedicated to protecting and preserving the natural world! Presented by Johnny Appleseed Metropolitan Park District.

RHODESOLOGY
SUMMER CAMPS

June 8-12, 2026

*Campers MUST register for both an AM & PM camp.

CAMP CLASSES

GRADES 5-6*

BATTLEBOTS 2.0 (AM SESSION ONLY)

Work in teams to create your competition BattleBot machine while learning the basic principles of engineering mechanics and electronics, including motors and microcontrollers. Finish out the week competing against your opponents in Rhodes State's Battle Arena. Tour a local manufacturing robotic facility.

MUSICAL MARVEL (PM SESSION ONLY)

Join in the world of digital music creation with Ableton and BandLab. Utilize cutting-edge Digital Audio Workstations (DAW) designed for aspiring young musicians and producers. Whether you're passionate about beat making, music production, or music technology, this camp offers an opportunity for exploration and creativity for campers through basic music theory, lo-fi beat creation, and hands-on experiences.

VIRTUAL REALITY CREATION AM and PM session available

Step into the future and design your very own virtual reality world using professional design tools! In this hands-on camp, participants will explore immersive 360° VR creation software to build, customize, and publish their own interactive videos and images. Campers will face fun and engaging challenges as they learn the fundamentals of VR design — turning their creative visions into virtual reality experiences!

CRAFTY CAMPERS AM and PM session available

Are you crafty and love DIY projects? Then this camp is perfect for you! Each day is filled with creativity, hands-on crafts, and fun DIY projects you'll absolutely love. From painting and building to upcycling and designing, you'll explore a variety of creative techniques—and the best part? You'll get to take home a brand-new project every day!

MESSY MOLECULES AM and PM session available

Join us as we turn the science lab into one of the messiest — and most exciting — places on campus! Campers will dive into the world of chemistry through hands-on experiments, explore amazing chemical reactions, and build 3D molecular models to discover how molecules interact and react.

STEAM- LEGOS IN MOTION AM and PM session available

Unleash your creativity and curiosity in this action-packed camp that blends the fun of LEGO building with hands-on STEAM learning. Campers will explore physical science through a sports-themed lens as they create LEGO models that foster an understanding of forces, motion, and interactions through engaging, hands-on activities.

GRADES 7-8*

BATTLEBOTS 2.0 (PM SESSION ONLY)

Work in teams to create your competition BattleBot machine while learning the basic principles of engineering mechanics and electronics, including motors and microcontrollers. Finish out the week competing against your opponents in Rhodes State's Battle Arena. Tour a local manufacturing robotic facility.

MUSICAL MARVEL (AM SESSION ONLY)

Join in the world of digital music creation with Ableton and BandLab. Utilize cutting-edge Digital Audio Workstations (DAW) designed for aspiring young musicians and producers. Whether you're passionate about beat making, music production, or music technology, this camp offers an opportunity for exploration and creativity for campers through basic music theory, lo-fi beat creation, and hands-on experiences.

CODE THE FUTURE WITH PYTHON – AN INTRODUCTION AM and PM session available

Ever wondered how websites and apps like Instagram, Google, or Spotify are built? Or maybe you're curious about analyzing sports stats, automating boring tasks, building games, or diving into market research? If so, Python is the perfect place to start—and Code Quest is your launchpad!

This week-long camp is designed for students ages 13–16 who are ready to explore the world of coding through fun, hands-on learning. No prior experience is needed—just bring your curiosity and creativity!

*Campers MUST register for both an AM & PM camp.

ESPORTS COMPETITIVE GAMING AM and PM session available

Prepare to compete as part of an Esports team. Discover Esports history, game mechanics, warm-up exercises, training regiment, and terminology. Learn the importance of proper communication, teamwork, and sportsmanship. At the end of the week, teams will compete in a gaming tournament that will be broadcasts over Rhodes' twitch channel with shout casters calling the play-by-play.

CSI RHODES STATE AM and PM session available

Join the Rhodes State Crime Scene Investigators for a hands-on experience where YOU become part of the investigation. As a crime unfolds, you will: collect and analyze fingerprints, document and secure evidence, learn about the chain of custody, and use real forensic science techniques.

Whether you're a future detective or just curious about the world of forensic investigation, this immersive camp puts you in the middle of the action!

DIY BOOTCAMP AM and PM session available

Join us for a week-long Do It Yourself camp where creativity meets craftsmanship! Learn new tips and tricks with tools as we dive into some of the nation's most popular DIY crafts — including woodworking, home décor, games, personal accessories, custom art and more!

Get hands-on experience, meet fellow makers, and bring your ideas to life!
