

The Workforce, Economic Development and Continuing Education Division is partnering with the West Central Ohio Manufacturing Consortium to present these hands-on training workshops.

Our intermediate and forthcoming advanced AutoCAD workshops will use the textbook provided at the basics workshop. We have adjusted the participant fee for those who already have the textbook. When registering for our intermediate class, please make certain to indicate whether you need the text on the registration panel.

Participant Fees

Basic AutoCAD - #L2045B

\$450.00 WCOMC members
\$382.50* Multiple-registrant Discount

\$495.00 non-WCOMC members
\$420.75* Multiple-registrant Discount

Intermediate AutoCAD - #L2024A

\$486.00 WCOMC members, **need text**
\$436.00 WCOMC members
\$413.00* Multiple-registrant Discount, **need text**
\$363.00* Multiple-registrant Discount

\$540.00 non-WCOMC members, **need text**
\$490.00 non-WCOMC members
\$459.00* Multiple-registrant Discount, **need text**
\$409.00* Multiple-registrant Discount

Course Descriptions

Basic AutoCAD

February 6, 8, 9, 13 and 15, 2012

5:30 to 7:30pm

This hands-on workshop offers an introduction to the basic skills, concepts and principles of engineering drawing while using current means of generating them, incorporating computers and the latest version of AutoCAD software.

Participants will be able to:

- Define terminology related to AutoCAD
- Identify the advantages and disadvantages of CAD
- List and identify the applications of CAD
- Identify and operate the CAD system equipment
- Draw orthographic views using AutoCAD
- Dimension orthographic views using AutoCAD
- Plot orthographic views
- Use the Windows system to properly format, save and move drawings

Intermediate AutoCAD

March 19, 21, 26 and 28, 2012

5:30 to 8:30pm

This hands-on workshop picks up where you left off in the basics workshop.

Participants will explore:

- Orthographic Views: hidden lines, slanted surfaces, cylinders, irregular surfaces, three views of an object.
- Sectional Views: cutting plane lines, hatch function, styles of sectional lines, holes in sections
- Auxiliary Views: transferring lines between views, projecting round and irregular surfaces, sectional auxiliary views
- Dimensioning: MLEADER, center marks, linear, radius/diameter and angular dimensions, styles

Workshops subject to cancellation if minimum required enrollment not met!
