

ILO/GLO #1 Civic, Professional, and Ethical Responsibility (CPER)

• Definition: The practice of fulfilling professional and societal responsibilities with competence, civility, ethics, and skill. • Description: 1. Demonstrate professional skills and participate in activities that are necessary for success in one's career or academic discipline. 2. Recognize civic and ethical responsibilities associated with the rights and expectations as citizens in a democratic society

ILO/GLO #2 Cultural and Diversity Awareness (CDA)

• Definition: Awareness, acceptance and respect for the uniqueness and differences of individuals, through conscious practices involving understanding the interdependence of humanity and cultures. • Description: 1. Understand and integrate knowledge of cultural worldviews, reflect attitudes of openness and curiosity, and illustrate empathy and understanding of own and other cultures. 2. Exercise awareness of the interdependence of diversity factors (i.e. culture, history, sexual orientation, psychological functioning, education, economics, environment, language, politics, age, gender, physical challenges, class, religion, etc.).

ILO/GLO #3 Critical Thinking (CT)

• Definition: System thinking that makes use of cognitive skills and strategies that increase the likelihood of solving problems, formatting inferences, and making decisions appropriately and successfully. • Description: Demonstrate ability to interpret meaning in decision-making and apply information to engage in innovative problem-solving strategies.

ILO/GLO #4 Effective Communication (EC)

• Definition: Can take the form of written and spoken words and occurs when an intended message (verbal or non-verbal) is successfully delivered, received, and understood between two or more persons. • Description: Apply knowledge of communication patterns and effectively interpret, use, and adapt various contexts or presentation methods to appropriate audiences.

ILO/GLO #5 Quantitative and Scientific Reasoning (QSR)

• Definition: The ability to identify, obtain, organize, analyze, and interpret relevant data (qualitative or quantitative) using sound mathematical and scientific concepts to draw valid conclusions. • Description: Understand and appropriately apply mathematics and scientific principles and methods.

ILO/GLO #6 Technological Proficiency (TP)

• Definition: The ability to apply and use technology to complete tasks and accomplish goals. • Description: Demonstrate the ability to utilize knowledge and skills to effectively incorporate technology into one's career o
