Growing Opportunities
in Agriculture at Rhodes State

March 2025

Diggin' In

Enroll Now!

Do you know someone interested in a hands-on agriculture program that blends innovation with real-world experience? Look no further than Rhodes State College's Agricultural Technology program!

Enrollment for the Fall 2026 semester is officially open, offering students the opportunity to gain cutting-edge skills in precision agriculture, agribusiness management, and sustainable farming practices. Our program is designed to prepare the next generation of agricultural professionals through hands-on training, industry partnerships, and state-of-the-art technology.

At Rhodes State, students don't just learn about agriculture—they experience it. With access to modern equipment, research-driven coursework, and expert faculty, our graduates are equipped to tackle the challenges of today's evolving agricultural industry. Whether you're passionate about crop production or agribusiness innovation, our program offers the tools and knowledge needed to succeed.

Secure your spot today and take the first step toward a rewarding career in agriculture! Visit www.rhodesstate.edu for more information on admissions, scholarships, and program details.

Don't miss out!

Success in Ag

Meet Trevor German: A Success in Agriculture Story

Trevor German, the owner of Eagle Eye Agriculture and store manager at More Farm Stores, Inc., of Delphos, Ohio, is a success story in agriculture. With a deep commitment to enhancing local farming operations, Trevor offers aerial spraying and seeding applications through Eagle Eye Agriculture, along with comprehensive field scouting services. His expertise helps farmers optimize crop health and yields with precision.

Trevor is also a strong advocate for hands-on learning, recommending Rhodes State Agriculture's degree programs as an excellent pathway for those interested in pursuing a career in agriculture. He believes the practical skills gained from Rhodes State's curriculum are invaluable to anyone entering the industry.

In addition to managing operations at More Farm Stores, Inc., a leading Kubota dealership in Ridgeville, Trevor is deeply involved in the local farming community. His work embodies a perfect blend of innovation and tradition, empowering farmers with modern tools and techniques. With Trevor's leadership, both Eagle Eye Agriculture and More Farm Stores continue to thrive and make a positive impact on the agriculture industry in the region.

What's on the Horizon?

Spring Planting Updates Coming Soon!

As we dive into the spring growing season, be on the lookout for updates from Rhodes State College's Agricultural Technology program! We're excited to share our progress as we begin planting at our Procter & Gamble farms. Follow along as we track crop development, share insights on our techniques, and highlight the hard work of our students. Stay tuned for regular updates, and join us in celebrating another season of hands-on learning and agricultural innovation.
