CAMP CLASSES

GRADES 2-4

LEGO: BUILD, PLAY, DESTROY, REPEAT

Get ready for some fun as we dive into the exciting world of STEM! Campers will explore design and engineering using all sorts of cool stuff like bricks, axles, wheels, gears, and more. It's all about learning while having a great time!

LITTLE PICASSOS

Get ready, little artists! You're about to dive into the fun world of art! You'll explore line, shape, color, texture, form, and value, and learn how to use these elements to create your very own beautiful masterpieces. Let's get creative together!

SPACE CAMP

Go on an adventure out of this world!

In this adventure, campers learn about astronauts, the planets, engineering, and the mysterious and magical universe through hands-on play. Learning to work with a team and form communication bonds is a key component of crewed spaceflight. The sky's the limit.

ADVENTURES IN OHIO

Have you ever been curious about the hidden gems in Ohio? Join us for an exciting week of discovery and uncover all the amazing things your home state has to offer! We'll check out the Ohio Caverns, The Fort Recovery State Museum, Wilson's Sporting Goods, Airstream and so much more!

GRADES 5-7

ESPORTS COMPETITIVE GAMING

Prepare to compete as part of an Esports team. Discover Esports history, game mechanics, warm-up exercises, training regiment, and terminology. At the end of the week, teams will be compete in a double-elimination style tournament which will be streamed through our Rhodes' sanctioned Twitch channel giving family and friends a look at just how much their camper has learned.

COLOR YOUR WORLD

Come join us for a creative adventure where you can draw, paint, sculpt, and sketch! Let's dive into the exciting world of art together and discover how to bring your unique masterpieces to life. From the expressive strokes of charcoal to the stunning details of hyperrealism, and even 3D painting and sculpting—there's so much to experiment with. It's going to be a fun-filled art camp, and we can't wait to see you there!

STEM - BATTLEBOTS

Dive into the exciting world of building your own BattleBot! You'll get hands-on experience with the basics of engineering mechanics and electronics. At the end of the week, you will compete against others in Rhodes State's Battle Arena. Plus, you'll have the chance to explore local manufacturing robotic facilities!

DO IT YOURSELF BOOTCAMP

Crafters - calling you to join the week-long Do-It-Yourself (DIY) camp. Learn some new tips and tricks with tools as we tackle some of the most popular DIY crafts in the nation, including woodworking, soapmaking and candlemaking.

ADVENTURES IN VIDEOGRAPHY: VIDEO CREATIVE STORYTELLING

Ready to dive into the exciting world of video shorts? Let's kick things off by brainstorming some awesome ideas and crafting a script! Next, we will sketch out a storyboard and then we'll bring that storyboard to life with some hands-on videography! Finally we will edit it to polish it all up, and then it's time for the big reveal—publishing your masterpiece! Can't wait to get started!

MUSICAL MARVEL

Join in the world of digital music creation with Ableton and BandLab. Utilize cutting-edge Digital Audio Workstations (DAW) designed for aspiring young musicians and producers. Whether you're passionate about beat-making, music production, or music technology, this camp offers an opportunity for exploration and creativity for campers through basic music theory, lo-fi beat creation, and hands-on experiences.

Scholarships available

Scholarships available through drawings. You must register and submit payment to be entered into drawings. Scholarships are awarded the week AFTER camps are held and will be issued as a refund to the original form of payment submitted.
